Version	Date	Changes
V1.0	Oct 2, 2018	First meeting

Mario Bizcocho (Manager)
12-10-2018

Contenido

Abstract

In the first meeting all members of the group must come to a consensus on the following 3 items:

All together: commitment to reach an A+, the maximum possible mark.

Commitment: work individually and as a group.

Organization: even though we are a big team (6 people), we will strive to share the workload equally and according to previous deliverables' working quality. Meetings shall take place in person or via Discord.

Compromise: Everyone must work and, if they don't know how to do something, investigate and ask if needed. Abandoning is not an option.

Introduction

This document describes the kick-off meeting for group 14. We will comment on the most remarkable points of the commitment, do a short interview for each group member and initialize our project management system.

Workgroup

Name	Studies	Strengths	Weakness and way to face it	short-term plan	long-term plan	Objective and commitment in the project	Additional Information
Félix Valle Zarza	Bachiller and degree in Computer Engineering (studying)	Dedication, perseverance, ability to direct.	Difficulty of understanding Greater effort in understanding it and hours of dedication.	Finish the degree	Find a job and do the master's degree.	A+	I was assistant of the Ombudsman of the child of Andalusia in Huelva 2012-2015
